A cross-sectional diagram of a medical device, likely a catheter or probe, showing its internal structure and components. The device has a U-shaped tip with a central channel (60) and side channels (62, 63). A control cable (76) is connected to the base of the device. The diagram is labeled with various reference numerals: 14, 140, 92, 130, 63, 90, 78, 76, 70, 56, 62, and 60.
